

80 Years of Vision: An Evidence-Based Approach to the Treatment of Retinopathy of Prematurity**Release Date: December 9, 2019****Expiration Date: December 8, 2022****Content was originally presented at NEO: The Conference for Neonatology on February 22, 2019****Accreditations**

The MEDNAX Center for Research, Education, Quality and Safety is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The MEDNAX Center for Research, Education, Quality and Safety designates this live activity for a maximum of 0.75 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The MEDNAX Center for Research, Education, Quality and Safety is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. (#PO258)

The MEDNAX Center for Research, Education, Quality and Safety designates this enduring activity for a maximum of 0.75 *nursing contact hour(s)*. Participants should only claim credit commensurate with the extent of their participation in the activity.

The MEDNAX Center for Research, Education, Quality and Safety designates this enduring activity for 0.75 *pharmacotherapeutics contact hour(s)*.

Enduring Material - The ACCME recognizes this educational activity as an enduring material. The estimated time for completion of this enduring material is 45 minutes. This presentation was released on December 9, 2019. The expiration date of this enduring material is December 8, 2022.

The ANCC recognizes this educational activity as an enduring material. The estimated time for completion of this enduring material is 45 minutes. This presentation was released on December 9, 2019. The expiration date of this enduring material is December 8, 2022.

Target Audience - This presentation is intended for physicians, advanced practice providers, and other clinicians who treat neonates.

Purpose/Gap – Currently, there is a lack of organized protocol for diagnosis and treatment of Retinopathy of Prematurity (ROP). Clinicians need to know and understand the treatment options for ROP as well as the necessity of long term follow-up and the role of fluorescein angiography in the treatment of ROP.

CME- ACGME/ABMS Competencies addressed in this educational activity include patient care and procedural skills, and medical knowledge.

CNE- IOM Competencies addressed in this educational activity include: Provide patient-centered care and Employ evidence-based practice.

Desired Learning Outcome - Clinicians will implement at least one change in practice to improve care and outcomes in neonatal patients.

Disclosures of Financial Relationships and Resolution of Conflicts of Interest is designed to ensure quality, objective, balanced, and scientifically rigorous continuing education activities. All individuals in a position to influence and/or control the content of continuing education activities have been asked to disclose all relevant financial relationships within the past 12 months. Any real or apparent conflicts of interest related to the content of the faculty's presentation have been resolved as have any real or apparent conflicts of interest by the planners as related to the content of this conference. MEDNAX/CREQS is committed to providing learners with commercially unbiased continuing education activities.

Faculty, Planners and Reviewer Disclosures
