

Hypoglycemia for the Late Preterm and Term Infant

Live Activity

Date: 9/22/2021

Time: 02:00 pm or 10:00 pm Central time (60 mins)

Location: Huntsville, TX

Accreditation

The Mednax Center for Research, Education, Quality and Safety is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Mednax Center for Research, Education, Quality and Safety designates this Live Activity for a maximum of 1.00 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Mitigation of Relevant Financial Relationships

The Mednax Center for Research, Education, Quality and Safety adheres to the ACCME's Standards for Integrity and Independence in Accredited Continuing Education. Any individuals in a position to control the content of a CE activity, including faculty, planners, reviewers or others are required to disclose all financial relationships with ineligible entities (commercial interests) within the 24 months prior to their involvement with the CE activity. All relevant conflicts of interest have been mitigated prior to the commencement of the activity. Beyond disclosure of financial relationships, faculty are required to disclose when they plan to discuss pharmaceuticals and/or medical devices that are not approved by the FDA and/or medical or surgical procedures that involve an unapproved or "off-label" use of an approved device or pharmaceutical.

Disclosure of Financial Relationships

The planners, moderators or speakers of this activity have the following financial relationship(s) with ineligible companies to disclose:

Cathryn Moody, MSN, APRN, NNP-BC: I have no financial relationships to report. *FDA Disclosures:* None to report.

Katy Harig, RN: I have no financial relationships to report.

Nicole Brenson, MS.Ed.: I have no financial relationships to report.

Commercial Support

There is no commercial support for this educational activity.

Overview

Neonatal Hypoglycemia is the most common metabolic problem in the neonatal nursery/NICU. Despite this, the American Academy of Pediatrics (AAP) and the Pediatric Endocrine Society (PES) cannot agree on the threshold for defining hypoglycemia. This educational activity will provide the learner with information on the causes of and the risk factors for hypoglycemia as well as strategies to prevent, treat and manage hypoglycemia.

Objectives

At the conclusion of this activity, the participant will be able to:

1. Identify three (3) high-risk neonatal populations that require glucose screening.
2. Name three (3) complications associated with intrauterine growth restriction and fetal growth restriction.
3. Discuss three (3) variables around the controversy of defining hypoglycemia.

4. Utilize glucose protocol to intervene in hypoglycemic infants.

ABMS/ACGME Competencies

- Patient Care and Procedural Skills
- Medical Knowledge
- Practice-based Learning and Improvement

Evaluation, Attendance and Credit:

Within <https://mednax.cloud-cme.com>, click My CE and then select Evaluations and Certificates. Follow the instructions to record attendance/time spent and complete the brief evaluation. You will have the option to email the certificate of attendance to your mailbox.
