Overview:

The S.T.A.B.L.E. Program is a pre-transport stabilization, post-resuscitation course designed to assist caregivers in the care of newborns. This course is appropriate for health care professionals in all level nurseries and with all experience levels.

Objectives: At the conclusion of this activity, the participant will be able to:

1. Improve patient safety for infants by: (a) standardizing processes and approach to care; (b) encouraging teamwork; (c) identifying areas where medical errors can and do occur; and, (d) reducing and eliminating preventable adverse events and errors.
2. Organize this information using a mnemonic to assist with retention and recall of stabilization activities that are critical for the post-resuscitation / pre-transport care of sick newborns.

ANCC – IOM Competencies

1. Provide patient centered care
2. Employ evidence-based practice
